Land Bank makes climate action and sustainability central to its business through Principles for Responsible Banking

23 September 2019 – Land Bank today became one of the Founding Signatories of the Principles for Responsible Banking, committing to strategically align its business with the Sustainable Development Goals and the Paris Agreement on Climate Change.

By signing the Principles for Responsible Banking, Land Bank joins a coalition of 130 banks worldwide, representing over USD 47 trillion in assets, in committing to taking on a crucial role in helping to achieve a sustainable future.

Taking place at the start of the UN General Assembly, the official launch of the Principles for Responsible Banking marked the beginning of the most significant partnership to date between the global banking industry and the UN. “The UN Principles for Responsible Banking are a guide for the global banking industry to respond to, drive and benefit from a sustainable development economy. The Principles create the accountability that can realize responsibility, and the ambition that can drive action.” said UN Secretary-General Antonio Guterres at the launch event, attended by the 130 Founding Signatories and over 45 of their CEOs.

As expressed in the Principles for Responsible Banking, Land Bank is convinced that “only in an inclusive society founded on human dignity, equality and the sustainable use of natural resources can our clients, customers and businesses thrive”.

By signing up to the Principles, we commit to “using our products, services and relationships to support and accelerate the fundamental changes in our economies and lifestyles necessary to achieve shared prosperity for both current and future generations”.

“A banking industry that plans for the risks associated with climate change and other environmental challenges can not only drive the transition to low-carbon and climate-resilient economies, it can benefit from it,” said Inger Andersen, Executive Director of the United Nations Environment Programme (UNEP). “When the financial system shifts its capital away from resource-hungry, brown investments to those that back nature as solution, everybody wins in the long-term.”

The Principles for Responsible Banking are supported by a strong implementation and accountability framework. By signing them, Land Bank commits to being transparent on both positive and negative impact on people and planet. Land Bank will focus where it has the greatest impact – in its core business – and set, publish and implement ambitious targets to scale up positive and address any negative impacts in line with global and local goals.

Directors: Mr MA Moloto (Chairperson), Ms DR Hlatshwayo (Deputy Chairperson), Ms SA Lund, Ms TT Ngcobo, Ms DN Motau, Adv. SJH Coetzee, Ms ME Makgatho, Dr ST Cornelius; and Mr MS Makgoba.

Ms KM Gugushe (Acting Chief Executive Officer), Mr YA Ramrup (Acting Chief Financial Officer) and Mr MK Mzaidume (Company Secretary)

“The principles will accelerate our journey on transparency and accountability to our shareholder and society for our lending and investment practices through assured disclosures in our future integrated reports reflecting the highest standards of environmental and social governance,” said Land Bank Acting CEO, Konehali Gugushe.

The Principles for Responsible Banking will provide Land Bank with an effective framework to systematically identify and seize new business opportunities created by the emerging sustainable development economy, while at the same time enabling the bank to effectively identify and address related risks.

About the Principles for Responsible Banking

The Principles for Responsible Banking were developed by a core group of 30 Founding Banks through an innovative global partnership between banks and the UNEP Finance Initiative (UNEP FI). UNEP FI is the UN-private sector collaboration that includes membership of more than 250 finance institutions around the globe.
